

ABN 19 000 871 330

• INTERNATIONAL FORWARDERS • CUSTOMS BROKERS • TRANSPORT & STORAGE SPECIALISTS •

Stevenson Logistics Pty Ltd were appointed as carriers in WA for Stockwell International Pty Ltd in January 2007. Since that time Stevenson Logistics has provided excellent service in both direct ex wharf & intermodal deliveries to Stockwell's clients.

Stockwell's clients in WA require fast and efficient transport services & Stevenson Logistics are the key to meeting this requirement.

Stevenson's on line job registration system CAT SYS allows us to not only pre book our transport but to also monitor progress in regard to movement of our containers via the rail service from North Quay to Forrestfield. Combined with their side-loader re-delivery from the Intermodal Terminal at Forrestfield to our customers it allows for the planning and on time delivery our customers demand.

Furthermore, with the commencement of the empty container park (ICS) at Forrestfield the uncertainty of de-hiring empty containers at other container parks has been greatly alleviated, and we now have confidence in our empty containers being de-hired within the detention free period.

Stevenson Logistics have ensured that their operators have built relationships and understanding of requirements with both Stockwell & Stockwell's customers.

We look forward to a long and mutually beneficial relationship with Stevenson Logistics in the future.
